

## Correct Toilet Equipment For the Very Fastidious Feminine Traveler

FITTED TOILET CASE.

FITTED toilet cases for the week end visitor or the traveler are of many styles and degrees of equipment. Some are quite simple and supplied with only the essentials of the toilet which may be classed as necessities. Others are handsome affairs, supplied with all the essentials for an elaborate toilet and handsomely mounted. One of good style is fitted with necessary articles, such as toothbrush, mirror, comb, brush and little boxes for pastes and powders which are mounted in ivory. The case is lined with moire and well made, the outside being of seal leather.

### HEALTH HINTS.

Don't forget that microbes are apt to lurk about the mouth of the milk bottle. It should be carefully wiped off before the milk is poured out.

Before retiring wash the hands with good soap, dry them and rub vaseline into and around the nails to overcome cracking and brittleness.

Where the eyes are tired and dulled, as after motoring, use either an eye lotion bath or one made of water to which a little boric acid or witch hazel has been added.

Keep the eyes open in the water. This both strengthens and brightens them.

A tonic for the eyebrows may be made with two ounces of red vaseline, one dram of tincture of cantharides, fifteen drops of oil of lavender and fifteen drops of oil of rosemary. Apply night and morning with a tiny brush. This can also be used on the eyelashes, but must not be allowed to get in the eyes, since any oily preparation will inflame them.

### PROTECTIVE COLORS.

They Should Be Considered in Choosing a Sunshade.

The color of a sunshade has a great deal more to do with its power of keeping off the sun than some people realize.

Light brown tussore lined with green and white lined with green are the best. Green alone comes next.

For some reason, known only to the scientific, yellow-brown and green keep out that part of the sun's rays that works havoc with the complexion.

Red is quite fairly good too. Black is of no great value. And blue is hardly any protection at all because it apparently lets through all the devastating rays of the sun and only keeps out the innocuous ones.

It's a little tip that may be handy when you are next buying a sunshade.

A Hoosier Cabinet makes a Model Kitchen

## Why Do 700,000 Women Own Hoosier Cabinets?

When you know that 700,000 women use Hoosier Kitchen Cabinets three times every day, doesn't it suggest to you that you need this drudgery-saver in YOUR kitchen?

Figure it out to yourself this way: Would they have bought these cabinets without convincing themselves that they SAVE MILES OF STEPS and hours of time? Would so many have bought them at all if their friends hadn't told them and thus influenced their friends to buy them.

Since this means that more Hoosier Cabinets have been sold than all other 128 makes of cabinets combined, isn't it proof enough that the Hoosier is the best cabinet on the market?

When you see how the Hoosier groups four cupboards around a large metal table and places 400 articles at your fingers' ends so you can sit down and work—AND REST while working—you'll want one of these "White Beauties."

Come pick one out today.

## DEVICES FOR THE TELEPHONE

Novelties That Make This Household Friend as Attractive as It Is Useful—The Doll Cozy Easily Made.

DAINTY woman will tell you that the telephone, while indispensable, is scarcely an attractive addition to the boudoir or sitting room. Even the hand affairs that may be tucked into a corner or placed on a desk where they are inconspicuous are seldom in harmony with the other furnishings.

Cozies or covers are a novelty, and while some women may not like them, they offer an effective way of hiding the hand piece. In the boudoir one may form the double purpose of serving as a cushion and phone cover. The cover is made on a wired frame so that the telephone fits into the inside, and the doll's head serves as handle by which it may be lifted.

Two attractive covers are pictured here. In one case dolly is arrayed like

a nursemaid, with cap and dotted Swiss apron over a dark gown. The other doll is arrayed in silk and lace, with wide spreading crinolines.

A useful device has been put on the market to insure privacy when telephoning. Every one knows how annoying it is to be forced to telephone in the usual surroundings of the home.

Every one within hearing distance tries not to listen, and the person who is telephoning tries not to make his message audible, with the result that the person at the other end of the wire does not understand what is said.

A telephone muffler is made to slip over the mouthpiece and fit about the mouth. It is impossible to hear what any one telephoning in this muffler says.

Hand bags for use with tailored suits are hybrid affairs, half leather and half Roman striped silk. One side of the bag is of leather, the other half being of the gay silk. The handle is of silk, lined with leather. Such bags are serviceable as well as smart, for the leather lining keeps the silk strap handle from fraying out, and the leather side of the bag held inward catches the rub against the costume, parasol or whatever the bag is laid upon.

Three alleged members of the night rider band were landed in jail at Hopkinsville last week, after the raiding of the home of a colored farmer. He was the only negro living in that section and had been ordered to leave. The gang dragged him from his bed and whipped him severely, shot him through the head then riddled him with bullets.

### What Would You Do?

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says: Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.—Adv. 1m

### A Boy And a Cow.

George Sonda, of Ohio county, Ky., is only 12 years old, but he is feeding and milking a registered Guernsey cow during an official production test. His father bought three Guernsey cows four years ago and with these as a start has raised a fine herd of 15 head. One of these cows, Imported Windflower 111, produced 13,000 pounds of milk and 626 pounds of butterfat during an official test, as a five-year-old. A daughter of this cow, Lady Alice, at 23 months produced 12,000 pounds of milk and 600 pounds of butterfat in a year. The cow which young George is interested in is 21 months old and is now giving 35 lbs. of milk, containing 4.7 per cent. butterfat, per day. He is taking full responsibility for the work and is proving himself a capable tester.

### LOVE.

There is nothing holier in this life of ours than the first consciousness of love, the first fluttering of its silken wings.—Longfellow.

Who ever loved that loved not at first sight?—Marlowe.

If any one should importune me to give a reason why I loved him I feel it could no otherwise be expressed than by making answer, "Because it was he, because it was I." There is beyond what I am able to say I know not what inexplicable and inevitable power that brought on this union.—Montaigne.

Love will make men dare to die for their beloved—love alone—and women as well as men.—Plato.

The pleasure of love is in loving. We are happier in the passion we feel than in what we inspire.—Rochefoucauld.

### SMART SLEEVES.

Occasionally one sees the leg-o'-mutton sleeve on an afternoon gown.

A sleeve should always bear some relation to the low neck of the gown.

The more draped a dress the simpler should be the decoration of neck and sleeves.

Looseness and more looseness is the dominant note of the new blouses.

When sleeves are long they are molded to the arm.

### GRAY FASHIONABLE.

New Shade Exploited in the Making of Linen Dresses.

Stone gray is the latest and most successful color for silk finished linen. It is a deliciously cool tint and quite as practical as beige or putty, as it does not show dust marks.

The peculiar shade of gray alluded to is the exact color of powdered pumice stone, and the Parisian tailors are using it in linen, gabardine and thin whilpeord.

The correct thing is the perfectly cut costume of linen in this color, with very strong suede gloves and dainty shoes to match. Then a vivid touch of pink or sapphire blue is introduced on the hat or perhaps, better still, an effective touch of deep orange.

Many of the new tailor makes have very tight sleeves, and the long muscadine gloves are drawn up loosely over them. This is a revival of an old fashion, and the effect is distinctly picturesque.

The Best Linen Closet. Linen stored in a closet warm and poorly ventilated will become yellow and will break earlier than if stored otherwise.

The properly constructed linen closet should be covered with linen slips fastened up with drawing pins.

Have the linen slips broad enough to fold back and cover the contents of the shelves. Old sheets may be used for this purpose.
